Benefit from Entrepreneurial Earth LLC's offerings and expertise:

- Unique and inspirational **educational programs and workshops**. Expertise and experience in communicating Earth sciences and the relationships and synergies with human systems. (Martin Ogle received the **2010 Krupsaw Award for Non-Traditional Teaching** – The annual award of the Washington Academy of Sciences for outstanding teaching in informal and non-academic settings.)
- Systems-based **consulting** that enables your organization to envision and accomplish sustainability goals in concert with other benefits (low cost, community recognition, community contributions, and more). (Martin Ogle **received the following awards and honors: 2012 Arlington Green Patriot Award** – presented for outstanding work in sustainability by George Mason University, Arlington Department of Environmental Services, Arlington Chamber of Commerce and Arlingtonians for a Clean Environment.)
- Affordable, contracted **projects** – working directly with your organization on projects and tasks ranging from developing and delivering educational programs to marketing your “green products and services,” to creating energy education lessons. (Martin Ogle has decades of experience in working in his community to advance “green goals, and receive the **2007 Green Innovation Award (best Green Organization)** from the Virginia Sustainable Building Network **on behalf of** Potomac Overlook Regional Park by the Virginia Sustainable Building Network.
