

Story Earth

A Live Storytelling and Multi-media Presentation

Science Philosopher
and Author
Martin Ogle

Master Storyteller
Author
Odds Bodkin

A thought-provoking stage performance combining storytelling, scientific discourse and conversation to ask big questions.

Do our ancient stories about humanity on Earth still work?

Or is science pointing us toward new ones?

And if so, how do we update the familiar stories we love?

A 90-minute presentation for high schools, colleges, congregations, organizations and conferences.
